

Trace3 – AI in Enterprise

A view from the VC lens

Fawad Butt

Bio

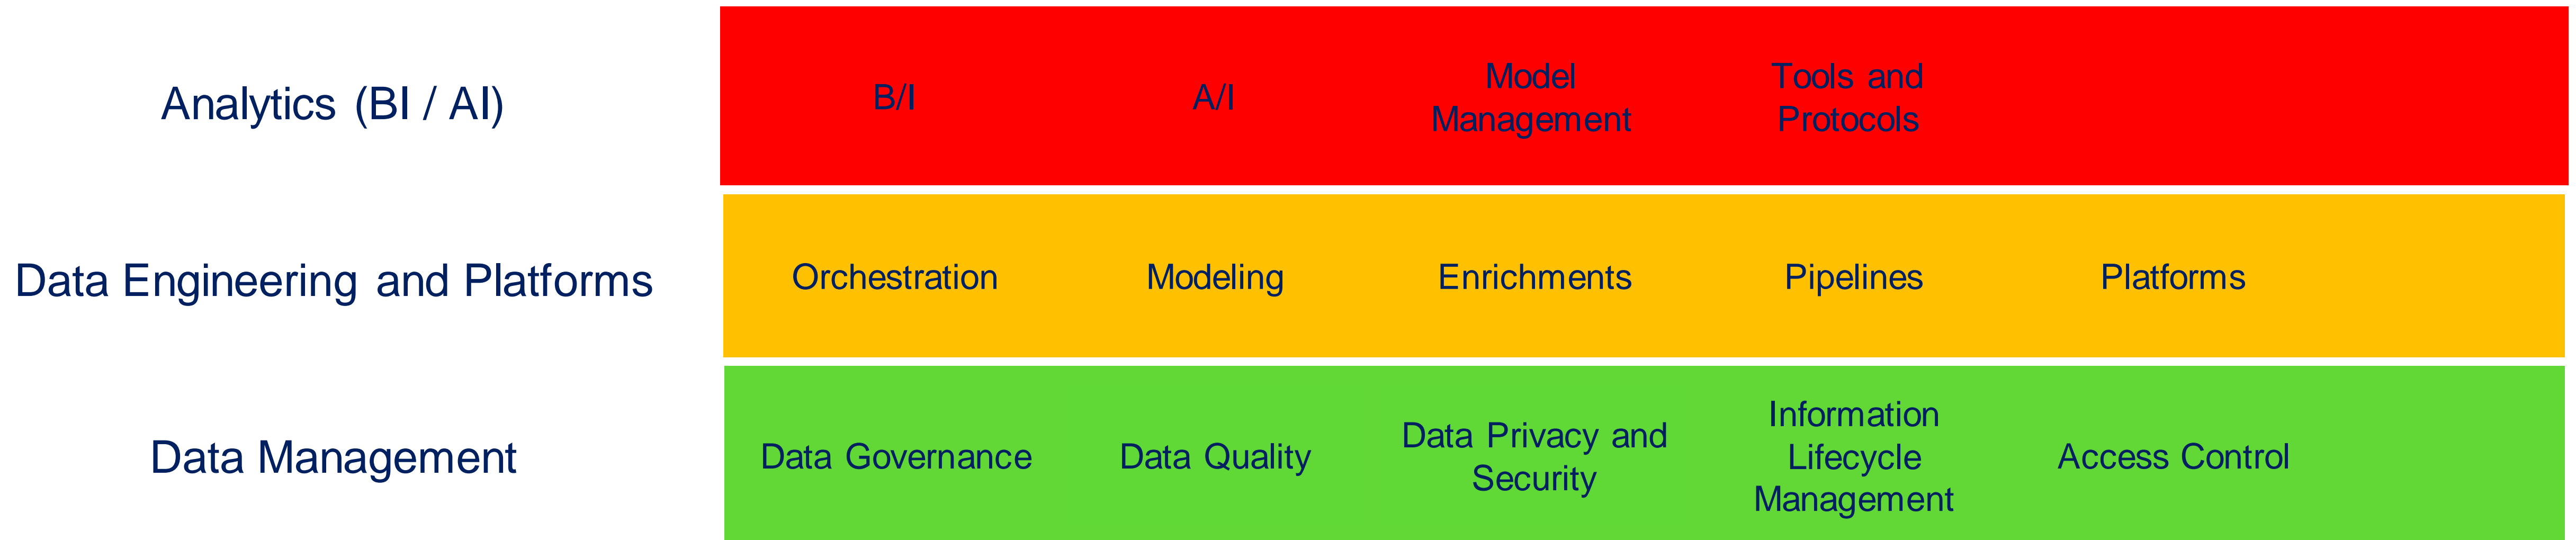

Background

- Executive in Residence - Canvas.vc
- Chief Data Officer - UnitedHealth Group
- Chief Data & Analytics Officer - UnitedHealthCare
- Chief Data Officer - Kaiser Permanente
- Global Head of Data Strategy – Northern Trust
- TIAA, TD Bank, Sun Microsystems, sgi, Cray

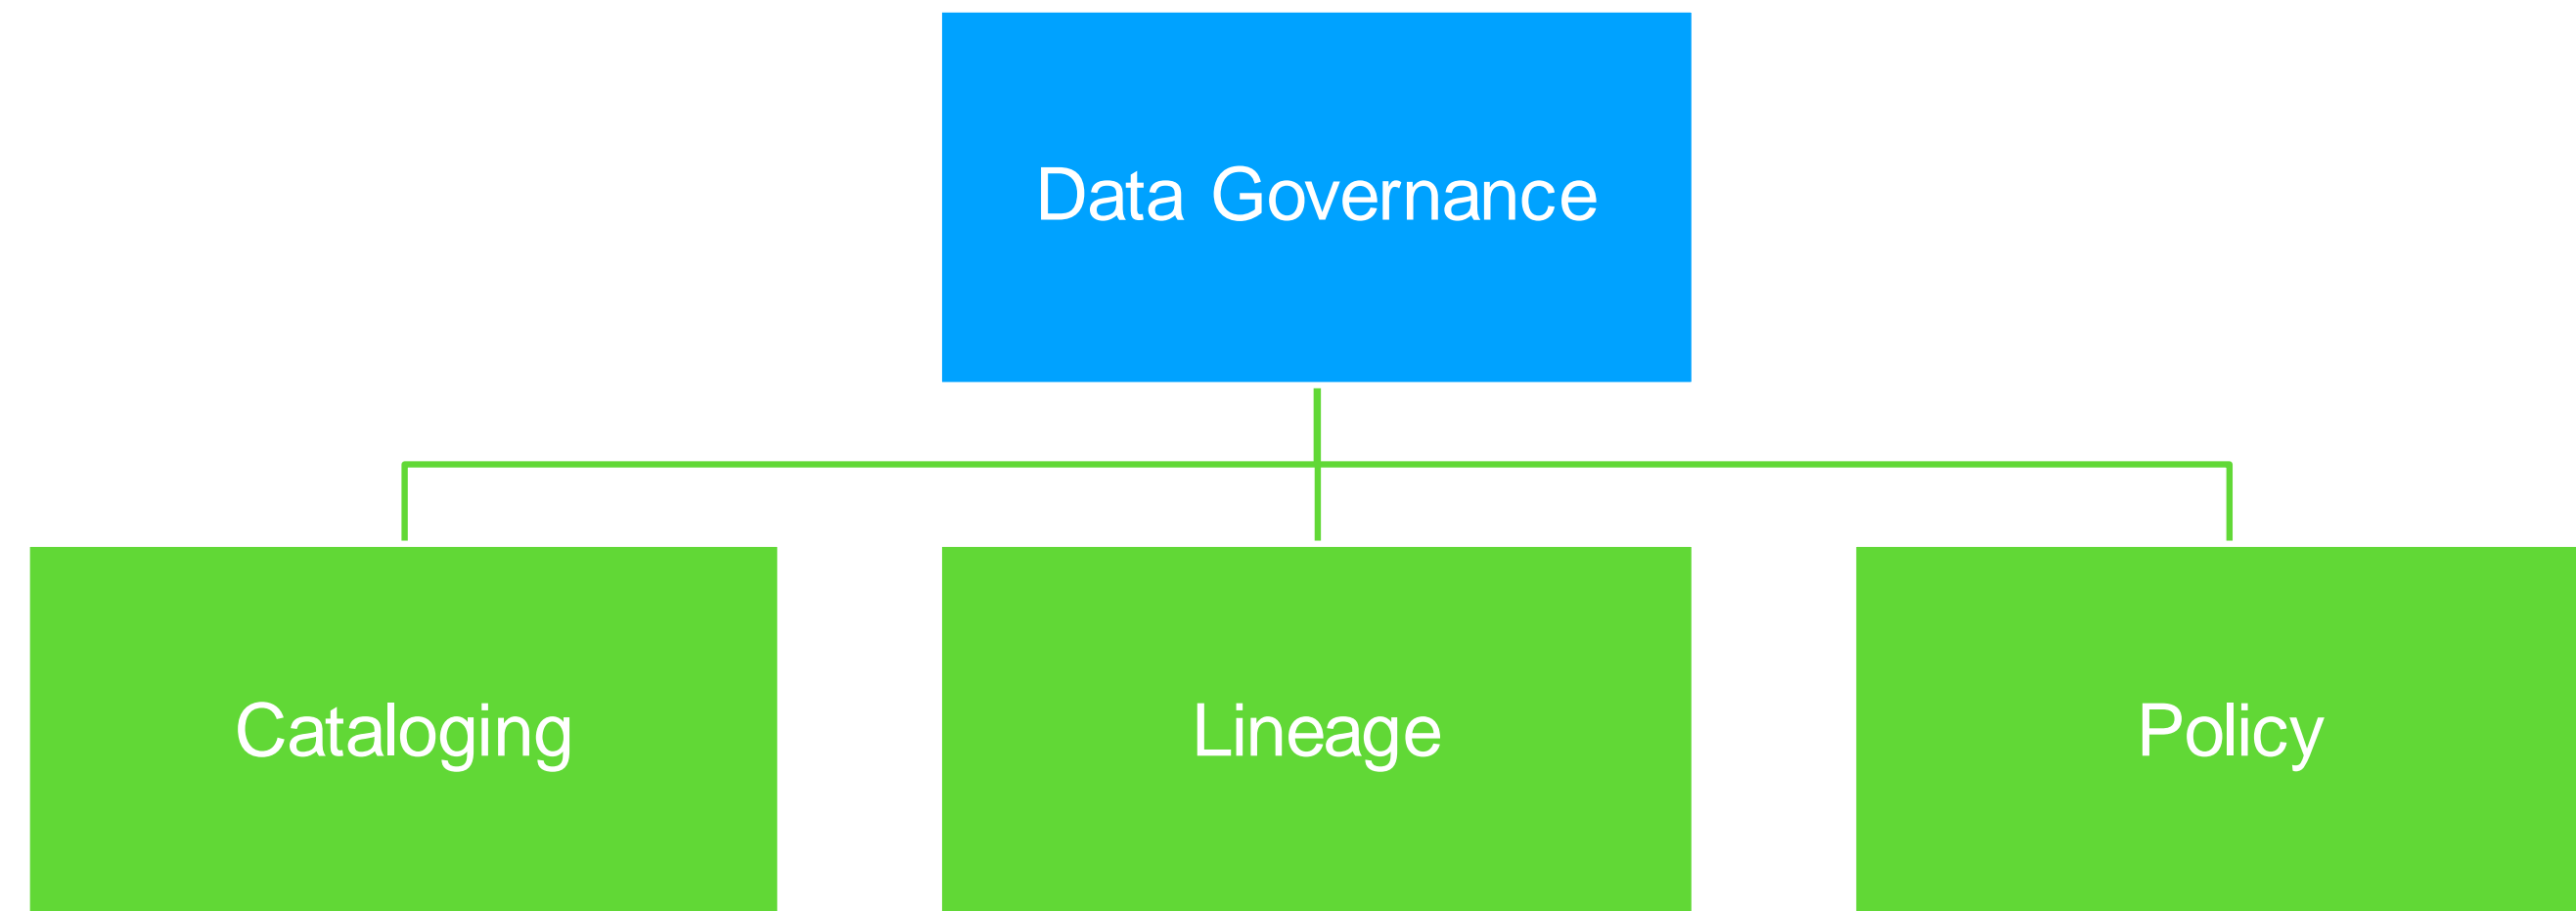

“CDO’s should think like city
planners”

- Fawad Butt

A Capability Centric Approach

Capabilities are becoming Categories

“Data Ops is the new Data Lake,
Hadoop, and AI combined”

- Fawad Butt

From a VC standpoint

What we are seeing

- Tremendous amount of investment activity underway in Data Ops
- Consolidation is imminent
- New entrants redefining the approach and products
- Investment areas: Observability, Intelligent Catalogs, Data Access, Real Time Analytics, Mastering v3.0

Data Discussion

Key Points

Each Capability should have an owner, primary products, and core services

Data Governance should be done in context, and with purpose

DG is a pre-requisite for Data Quality

Observability is the new buzz word

New technology vendors are disrupting the data landscape
